High efficiency LED lighting solutions

## JUGNOO e-Lantern

CTECH  
PRODUCT

'**JUGNOO e-Lantern**' is a revolutionary and unique concept in lighting - an excellent stand-alone lighting solution for your home and office during power break-downs, load shedding and emergencies.

**JUGNOO e-Lantern** is a power saver in the real sense. It runs at low current and consumes less than 1 Watt of power. Thus at full charge the small built-in power pack can run **e-Lantern** for 7-8 hours at full brightness all around.

**JUGNOO e-Lantern** is an ideal lighting solution when coupled with a small 2/3W solar panel for charging the batteries. The running cost of such a system is nil. It can also be charged by a Nokia mobile phone charger (through an adapter provided) from 230V AC supply. In this case, its running cost is 4 paise per day, compared to Rs1/- for Kerosine lantern

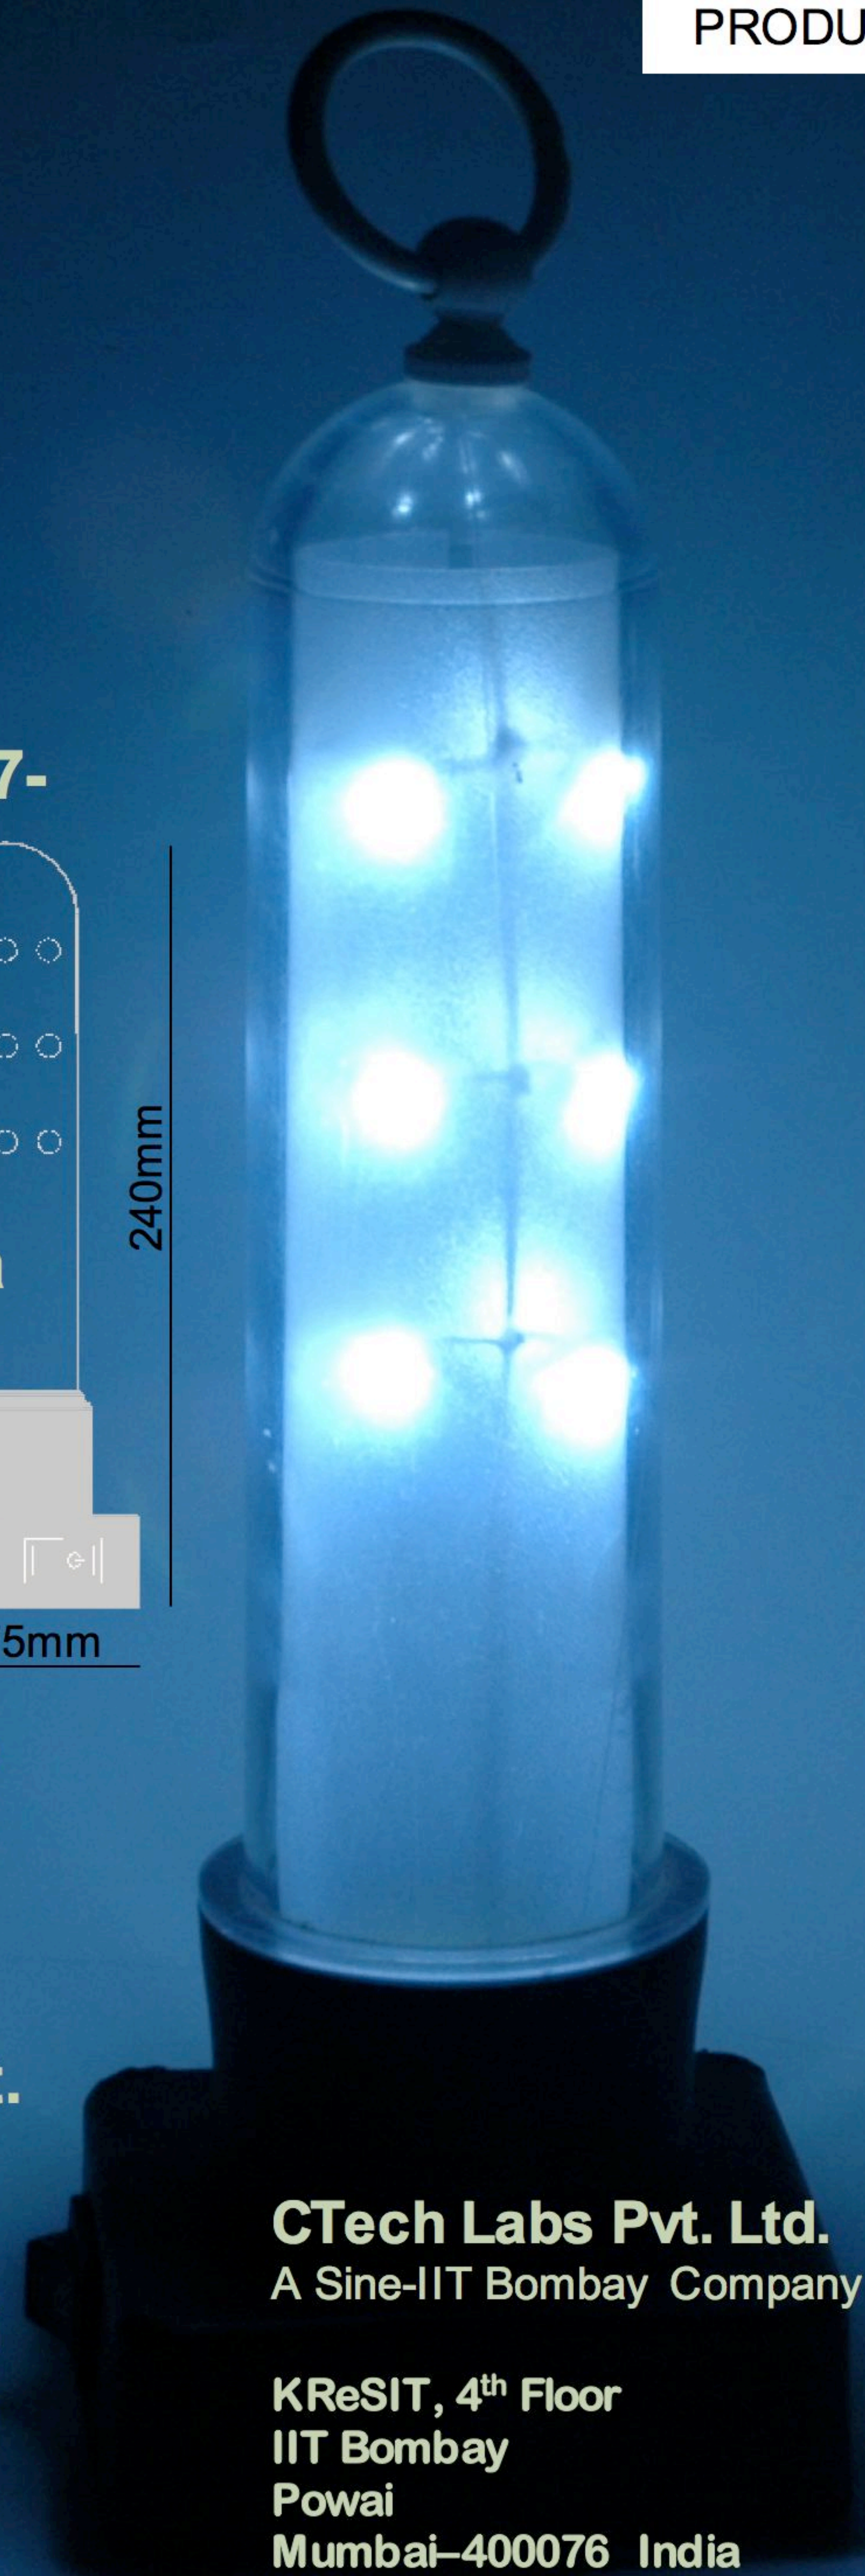

**JUGNOO e-Lantern** being light weight & portable can be carried around to light the dark pathways

**JUGNOO e-Lantern** is a safe & environment friendly - no mercury, no harmful fumes or soot.

With LEDs operating life of more than 20,000 hours, **JUGNOO e-Lantern** has a long operating life and is maintenance free. The voltage limiting circuit is built-in for battery protection.

**JUGNOO e-Lantern** is virtually unbreakable.
